Huntington Beach Chamber of Commerce Supports Exploring the Development of a Community Choice Aggregation

The Huntington Beach Chamber of Commerce has taken a position in support of researching the formation of a community choice aggregation. Taking time to see if a CCA would provide ample rate savings is something the City of Huntington Beach should strongly consider. Measures such as the CCA allow for a more competitive field when looking to recruit employers and jobs to Huntington Beach.

Permitting the signature of the non-disclosure agreement with Southern California Edison in no way obligates the City to develop a CCA, it merely provides adequate access to data. Exploring the possibility of a CCA without this data would be impossible or at best incomplete.

The Huntington Beach Chamber of Commerce is an association of business representing 700 companies and more than 25,000 jobs. We serve as the champion for those who create the jobs which make Huntington Beach great.

Sincerely,

James O'Callaghan
President/CEO
